- **Artwork resolution:** 600 px (w) x 1,500 px (h) (recommended maximum height*)
- **Artwork resolution:** 300 dpi (minimum)
- **Artwork file type:** JPEG (RGB)

Subject line recommendations:**

- A great subject line gives your audience a reason to open your e-shot!
- Where possible, please limit subject lines to fewer than 9 words – 60 characters in total
- Please avoid using emojis and special characters
- Limit punctuation marks to 3 or less.

Other requirements:

- One URL link to be supplied (your e-shot will link directly to this URL)
- Only static files accepted, as animated files are not supported by all email platforms
- Minimum recommended text size 6pt.

Social sharing image:

We socially share CN e-shots via Facebook and X (unless you have opted out†). We use a generic 'CN e-shot' image when sharing on Facebook and X, although, if you wish to provide your own image†† for social sharing, please provide to the following spec:

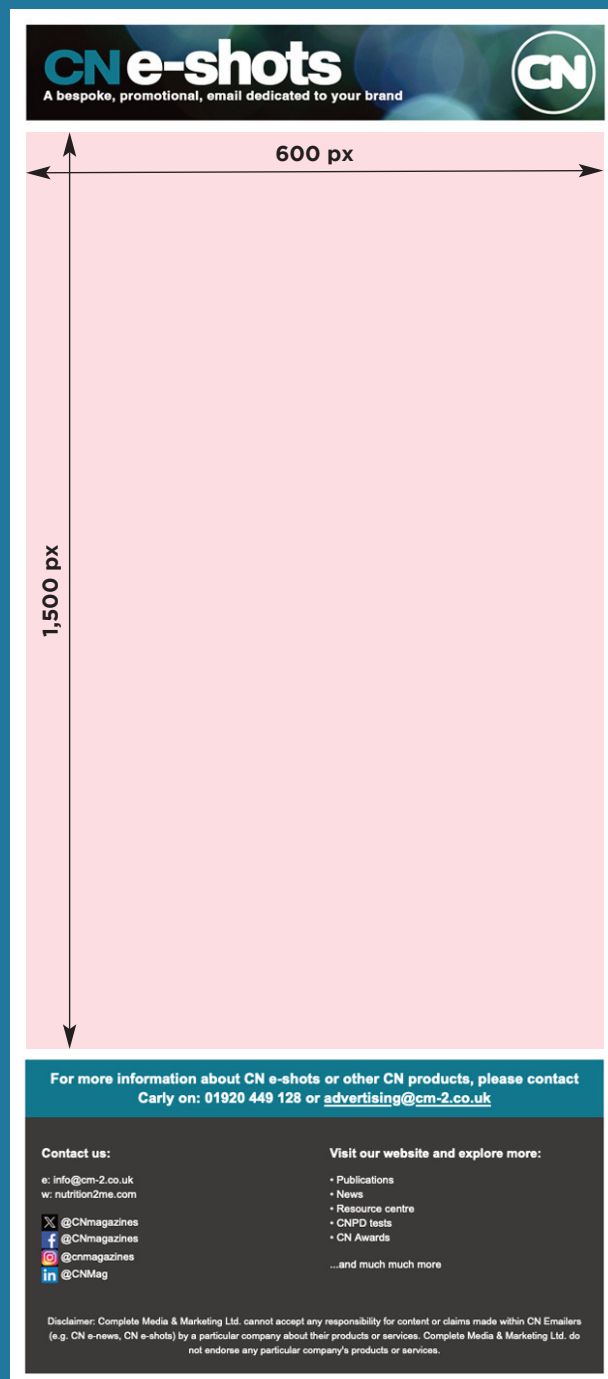

- **Artwork size:** 550 px (w) x 330 px (h)
- **Artwork resolution:** 300 dpi (minimum)
- **Artwork file type:** JPEG (RGB).

* If your Artwork is supplied over our recommended max height (1,500 pixels [h]) you will have to supply the artwork in 2 sections.

** These recommendations are provided as guidance only to help CN e-shots perform at their best and avoid junk and spam filters.

† All CN e-shots are automatically socially shared across CN's X and Facebook accounts. If you do not want your CN e-shot to be socially shared, you must opt out at the time of booking. Any CN e-shot relating to infant formula will not be socially shared.

†† The image supplied must relate directly to the CN e-shot.

Webinar of the Month

Non-Sugar Sweeteners: Balancing the Debate

This webinar, led by registered dietitians Dr. Paul McArdle and Nichola Ludlam-Raine, provides an insightful overview of the safety of non-sugar sweeteners.

The discussion delves into several key areas related to non-sugar sweeteners, addressing prevalent misconceptions and misleading media headlines surrounding them such as impact on blood glucose levels, potential for weight gain and carcinogenic risks.

During the session, Dr. Paul McArdle and Nichola Ludlam-Raine will also address queries from other healthcare professionals regarding non-sugar sweeteners.
